ĝ,

REASONS FOR ALLOWANCE

1. This Office Action is responsive to the Amendment filed on 07/09/04.

- 2. Claims 1-20 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

As per independent claims 1 and 10, none of prior art of record teaches or suggests a method and an associated apparatus for performing infinite impulse response filtering as claimed. The admitted prior art, previously cited, fails to teach an intermediate storage element, in associated with limitations recited in the claims, as being explained on pages 3 and 4 in REMARKS of the Amendment filed on 07/09/04. It would not have been obvious for one skilled in the art to implement the admitted prior art in view of other prior art of record in order to make such implementation leading to the claimed invention.

As per independent claim 19, none of prior art of record teaches or suggests a filter comprising an intermediate storage element, in associated with limitations recited in the claim and in combination with other elements recited in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
